ON MISS. GULF COAST

Interesting Interview Hith Head of I. C. Railroad on Board Private Car-Impetus Given Florida Real Estate To Be Duplicated Here.

In the cozy club compartment of an Illinois Central private car Chas. H. Markham, president of a group of railroads controlling 8,500 miles of track and employing 70,000 people, talked quietly and earnestly, Saturday evening, of the policies of his company toward the people of Mississippi and of his attitude toward the development of the Mississippi Blaize awaits his commission from Coast, to a reporter of the Gulfport Herald, who traveled with him from Hattiesburg southward.

Mr. Markham wore a loose tan shirt, a pair of white trousers, a comfortable equipment of walking shoes, and, despite a long and busy day, from Pass Christian's breakfast through Biloxi's luncheon, and into and out of the trip to the sound's new pleasure island, he wore a clean and unrumpled white collar. An unlighted and much chewed

cigar hung between his thumb and fingers, and pointed the emphasis of more than one clearly-spoken phrase; "To start with, I will tell you boys that I can make no definite promises of development at the present time," Mr. Marklam said, as he settled back into a chair at the built-in writing desk in the compartment: "I have seen a great deal of the Mississippi Sound country today, and have gained impressions of its possibilities—impressions that have added greatly to my previous faith in the development of the coastal section as a pleasure resort for the vast

'More than ever, I have felt today the conviction that a tremendously important resort section will be built upon the shores of the Mississippi Sound, and that the millions of wealth in the country between the Ohio valley and the Canadian border will be attracted here during the winter, and that growing leisure class centered at Memphis, Louisville, St. Louis and other cities in the central part of the country will make this their summer playground.

population of the Middle West.

"You can see that any promises of mine are unnecessary. The dream of a great national playground on the Mississippi Coast is coming true -now, while you wait, and sooner perhaps, in its full consummation, that the people of the Coast itself ever thought it would. Take, for example, today's announcement of the proposed construction of a 400room tourist hotel, with facilities and comforts equalling those of the best of Florida and California hotelsthat is the beginning.

"In my belief, from what I have heard and seen, this hotel project is only the forerunner of other similar projects that will put the Mississippi Sound section definitely on the

"Here on the Mississippi Coast you are a short 23 hours from Chicago, the center of the Middle West, and from such cities as Detroit, St. Paul, Minneapolis, Cincinnati and Kansas City. The Coast is 24 hours nearer than Florida and nearer still than

California. 'The impetus given to Florida by real estate speculation, in time, will be duplicated here. It has already started. This country of ours is growing: it is growing in wealth. growing in population, growing in the number of its leisure class. The people are learning, more than ever before, the art of playing. If the Coast provides the necessary inducements of hotels, golf courses and other places of amusement, these. added to the natural advantages of location, climate, and to the attractiveness of outdoor sports—fishing, hunting, yachting, bathing-will make the section peculiarly attractive to the people of the North, who want such things and will spend their money to get them.

"Our job—the job of the Illinois Central-will be to provide the transportation for these people. We are doing that now, to the best of our ability. The future will see holdings preater improvement in our service. Miss How we are advertising the opportunities

GULFEORTEMISS

To The Voters of Hancock County.

Ladies and Gentlemen:

An election will be held on Tuesday, July 28th, 1925 (this month), to fill the vacancy in the office of Representative from Hancock County in the State Legislature. After considering the matter carefully, I have decided to become a candidate for that office, as my experience for eight years will be of great benefit to my people at this time in the Legislature, when the repeal of the income tax law will require work and experience. If a stranger were sent to Jackson to represent this county during this one term, very little good could be accomplished. I am personally acquainted with over half the members of the Legislature, and all of the State officers, many of whom are my close personal friends.

I am in favor of the repeal of the State income tax law.

I will favor as always a practice of economy and lowering of taxes consistent with the necessary improvement.

I favor the abolition of the office of Revenue Agent. I firmly believe the office of State Revenue Agent should be abolished and a law to be passed authorizing the State Tax Commission, the Attorney General and Governor jointly to govern all matters pertaining to collection of delinquent taxes of every description.

I am in favor of such laws as would induce capital to come to this State and make it, and especially the Coast counties, the most prosperous section of the country.

During the time I served in the Legislature for Hancock county, it is known that all of the laws passed with reference to those things that are now becoming realities in Hancock county were first written and passed by me. It is impossible in this letter to set out all of these matters, but some of which are the good roads, the sea wall, the Bay bridge and the aid to the farmers throughout the State.

As you know, while I served as your Representative this county was honored and I had the pleasure of the chairmanship of important committees of the Legislature, and our county received honorable recognition on many occasions, all of which it is impossible to mention herein. It is on this record that I solicit your vote and influence. If elected, I will do all in my power, with the advantage of the experience I have had, to assist in those important deliberations which will arise, with fairness to all, for the material benefit of our State and county.

Assuring you that I will appreciate your vote and influence and that if elected will do all in my power to accomplish those things that will redound to the benefit and happiness of the people of this county, as I have always done.

Respectfully,

ROBERT L. GENIN.

-The Rotary Club held a most interesting meeting at the Hotel Weston Weenesday night with city and county officials as their guests for the banquet and as outside guests Prof. Dick Cox, district Rotary governor, and Curry Bowen, both of Gulfport; as guests. The main object of the control of the cont ject of the assembly was to discuss with the efficials the matter of widening strets to be paved and to straighten out crooked ones. It was also discussed to make away with Devil's Fibor or clear the main objects of the main objects and to straighten out crooked ones. It was also discussed to make away with Devil's Elbow or else not to pave that section. It is the general impression and it was made plain no narrow and no crooked street will be payed. The meeting was a most interesting one

and largely attended. -Mr. Geo. R. So Weak Couldn't Stand

"My wife's health broke down and for years she was just a physical wreck," says Mr. Thomas Glynn, of Gib-son, La. "We did everything we knew, yet she seemed to get worse and worse. She was so weak till she couldn't stand, and had to be carried like a baby. It looked like nothing would save her that had been done.

"I began looking around. I

knew that Cardui was for women. I decided to try it for her as all else had failed. She couldn't eat, she couldn't sleep, and I was desperate.

"After taking a few doses of Cardui, we were so glad to note that she wanted something to eat, and with each bit of nourishment, and each day's doses of Cardui, she grew stronger and got up out of bed. She is now able to cook, and stronger than in a long time."

Cardul has been in successful use for nearly 50 years in the treatment of many common female fronbles. All Drogglats'

May not be setting the woods on fire. He didn't start in to do that. But I'll tell you what he is doing, and don't you ever forget it. He is buying and selling goods. Any man so silly as to think the old man was down and out, on his back, and not able to raise the

funds to do business, has a sad, sad awakening now. Do you ever pass around to the old gentleman's place of business? If not, why not? Everybody's

doing it. I've got some 2 in 1 around here, but its Shoe Polish. That's all. Enough this time, but you will hear more about it later on.

Am I nice to folks? Well, yes; so far as I know. I greet everyone pleasantly. And in addition I give you more for the mon. That's what counts. Oh, that pocketbook! It never fails you. No wonder people love it so.

Tarr & Wonson's Copper Paint, almost given away. Oh, I am some bird when it comes to slashing prices.

Lime—only \$1.95.

There are two ways to slash—one is only at one end; the other, both ends. That's I'll, as Katzenjammer says. I slash to hold down the overhead and to be the cheapest man in town, which I am, and expect to be. Nobody denies that. Some will say 1 am not making any money. Please don't anybody worry about that. Oh, don't; for goodness sake! Lay off. Let me do the worrying.
